

# The Olympic Games

by Zac 3/4K

Imagine a world where all the nations come together in peace and harmony, united by a common goal. That's the world of the Olympic Games.

Here are a few reasons why the Olympic Games are awesome. The Olympic games brings the whole world together. Everyone who goes to or plays at the Olympics has fun, no matter if they win or if their team wins - and at the Olympics, everybody tries their best!

In my opinion I love the Olympics. I watch them every time and even if you don't like sport, I think you should at least watch it this year. Who knows, you might like it!

I think one reason the Olympic Games are so awesome is because they bring the world together, united. The Olympic rings represent the union of the five continents and the meeting of athletes from throughout the world that go to the Olympic Games.

The Olympics started in Olympia, Greece 776 BC and from then till now there has been 29 summer Olympics and 25 winter Olympics since it started.

Even if you don't really care about the Olympics or just sports in general, there is just something magical about the Olympics - they're just GREAT! Athletes train for years, some even give up their whole lives to compete at the Olympics. And that's another reason why I think the Olympics are so

**Awesome!**

In my opinion, I think more people should go to the Olympics because they are truly multicultural. Today we talked about: why the Olympics are so great and the fact that at the Olympics, everybody tries their best! Just like at Marrickville West!

Now let me finish with the words from the Olympic Oath, said by athletes, judges and coaches at the opening ceremony of every Olympic Games, and here it is:

"We promise to take part in these Olympic Games, respecting and abiding by the rules of solidarity and commit ourselves to sport, without cheating, without any form of discrimination. We do this for the honour of our teams, in respect for Olympism, and to make our world a better place... through sport."
